

Sistership Tribute - 2002 Calgary Dragon Boat Festival

You see before you the women of Sistership – women of courage – for they have been challenged by a fearsome dragon. Sistership represents life with cancer, life that will never again be carefree but life that is truly lived. The members of Sistership’s dragon boat teams put themselves on the line at every practice, in every race, striving to be the best they can be regardless of age or illness, drawing upon strength forged by the fire of a dragon, a dragon who has become THEIR dragon.

A special thank you is extended to Gary and David Wong, and Herman and Francis Wahl of Redcliffe Greenhouse for Sistership’s memorium flowers today. The petals are scattered in loving memory of team mates and friends and all women lost to breast cancer worldwide.

Courage...is being afraid and doing it regardless.

Courage...is choosing to live life fully in the face of
formidable odds.

Courage...is reaching out to others in the midst of personal
pain.

Courage...is in each of us.

Join me in saluting Sistership – Calgary’s own Women of the Dragon!
